

Introducing Our Service Plans: Compliance, Comfort, and Complete

We understand the critical role your fleet plays in your business operations. That's why we're dedicated to providing comprehensive service support to help you manage your fleet more effectively.

With fixed costs and vehicle downtime planned in advance, we're confident we can help you manage your business more efficiently and profitably with our service packages.

INTRODUCING OUR SERVICE PACKAGES - COMPLIANCE, COMFORT, AND COMPLETE

Choose from the new service packages available, each one designed to meet your fleet servicing requirements. By selecting one of our plans, you not only gain access to service support but also lock in a fixed servicing cost, protecting you from any potential price increases throughout the duration of the plan.

Experience the peace of mind that comes with knowing your fleet is in capable hands servicing your full vehicle requirements.

"All our trailers are on RTC maintenance contracts, this gives us the knowledge our trailers are being maintained correctly, with RTC Tipton scheduling and managing the throughput. It gives us the peace of mind our maintenance partner is protecting our business with legal compliance, and their expertise and knowledge keeps our trailers working. I would certainly recommend RTC Contracts."

Alan Hingley,
Managing Director,
A Hingley Group

"We have a small fleet of Vans and HGVs, and have utilised Renault Trucks and Vans for the past 21 years. The HGVs are mechanically maintained and serviced at Renault Trucks Tipton. Each of the vehicles has their individual Service Contracts. New for 2024 is the newly purchased Renault Master Panel Van, supplied through the Renault Van Centre Tipton and has also been given its individual Maintenance Service Plan."

Richard M Grainger, Director,
RMG Logistics Limited

"We operate a mixture of vehicle types across our family of brands, including the Renault E-Tech Master and Luton bodied vans for BJS Home Delivery, and a mixture of HGVs in various C and T range configurations for BJS Haulage and Construct IT.

We choose Renault Trucks because our relationship is strong and the product is perfectly suited to our requirements, with a variety of vehicles to suit every aspect of our businesses.

Maintaining this partnership with Renault has been crucial for us, and the working relationship we have with the team means we can look to the future with confidence, and are pleased to recommend Renault as a supplier to anyone."

Harinder Singh,
Managing Director, BJS

"As the market leader for manufacturing and supply of ready mix concrete, liquid screed and concrete pumps in the South West and beyond, we know how important reliability is for our customers. As a long established partner of Renault Truck Commercial in Avonmouth we have an excellent relationship with the team. We have taken out RTC contracts for many years, and continue to do so as we trust the depot to manage our vehicle compliance. The peace of mind the contracts bring in terms of MOT and OLI's is extremely important to us, with our operation we need to reduce any risk of mid-operation breakdowns, so regular servicing and inspections give us the reassurance and confidence we need to run our transport, and helps us to continue to lead the way in concrete solutions."

"Our relationship with Renault goes back some years now. We like the product, it's an excellent fleet truck for our business. Coupled with this, is the relationship we have with the local Renault dealership. This is one of the primary factors why we keep going back to Renault. They are flexible and have a 'can-do' attitude. They understand the pressures of the job, which is so important and do everything possible to support our business."

Chris Smith, Director, SEA Transport
